Descrizione

Dura Pro 2 Glove

- DESCRIZIONE:

Guanto con doppio strato protettivo anti abrasione. Garantisce un'ottima tenuta e un ottimo grip.

- LAVAGGIO:

Consigliamo di lavare a mano con acqua calda e sapone. Lasciare asciugare all'aria.

- DESCRIPTION:

If you are looking for a glove suited to mainsheet trimming; where releasing the sheet is just as important as pulling in, our Dura Pro may be the answer. With double layer top quality abrasion resistant Amara on all high load/stress areas, these gloves are extremely supple with excellent grip and are perfect for all helming duties. Every aspect of the design has been thoroughly considered. Using only top rated abrasion resistant Amara in places where supple durability is required and with 3D shaped cut/construction for total comfort. The fastening around the wrist is ideally shaped and positioned to avoid collision with your watch strap, and is made additionally secure with its fail safe tab.

- WASHING:

We recommend hand washing in warm soapy water and allowing to air dry.
