### Descrizione

Rooster Classic 3/4 Hike Shorts

- DESCRIZIONE:

Pantaloni steccati in neoprene 3 mm, con stecche inserite in una guaina di neoprene "Diamond", esterne.

Protezione sulle ginocchia, retro del ginocchio in neoprene stretch.

Pannello sulla schiena in tessuto non-stretch, per dare maggior supporto con le bretelle incrociate anteriormente.

- LAVAGGIO:

Consigliamo di lavare a mano con acqua calda e sapone. Lasciare asciugare all'aria

- DESCRIPTION:

These hike shorts have been designed to Southern Hemisphere standards with 10.5" battern pads and 'diamond' neoprene to give both support and protection with longevity.

The knee section of this garment has now been redesigned to give better protection to the knee with a built in knee pad coupled and stretchy material behind the knee to allow for a good fit on all leg sizes or on top of other layers such as a dry suit.

Non stretchy back panel now gives extra back support when the braces are crossed at the front.

Use lycra shorts to give you the right amount of grip and slip and prevent wear of the batten pockets from an abrasive deck.

- WASHING:

We recommend hand washing in warm soapy water and allowing to air dry.
